## Master List of Terms Tested

*last updated 12 July 2026*

The first column details the year and test in which the term found in the second column is the a correct answer of an item in that particular test; the remaining four columns offer the distractors used in that particular test item.

I do not mind sending as an attachment a Word file that the coach and his or her team can manipulate in a manner that serves them best. Please contact me: [dibern@sbcglobal.net](mailto:dibern@sbcglobal.net)

Please contact me when you find a typo, inconsistency, or anything more serious: [dibern@sbcglobal.net](mailto:dibern@sbcglobal.net)

Please note that the variety of distractors and, indeed, the terms themselves follows the editorial decisions that have characterized each succeeding edition of *The Handbook to Literature*. We are currently using the twelfth edition.

→ While some of the distractors are found in earlier editions, tested terms are found in the twelfth edition. Please add, *envelope stanza*, *in memento mori*, *prolepsis*, *resonance*, and *sigmatism*

**Use Control + F to find a term.**

**Boldface terms in second column are the answers to *NOT* questions; e.g.,**  
**Not a grammatical construction that involves the omission of a letter or a syllable is . . .**
